National Education Institute of Slovenia supports use of new educational technologies

1. New educational portal and CMS for teacher training and virtual classrooms
Strategic teacher trainers program: "ICT in the function for encouragement for the professional growth of educational employees".
1. Projects on Internet - developing ICT skills and organizing virtual classes
2. Distance education
3. 10 years of MIRK conference

1. New educational portal

<http://info.edus.si>

- Seminars
- Virtual classrooms
- E materials
- Teacher news
- Links
- Workspace

The screenshot shows the Microsoft Internet Explorer browser window displaying the website <http://info.edus.si>. The browser's address bar shows the URL. The website header includes the logo of the Zavod Republike Slovenije za šolstvo and the date Monday, 17 October 2005. A navigation menu on the left lists various sections: Domov, Forum, Povezave, Arhiv novic, Admin, SPLETNE UČILNICE, RAZVOJNE SKUPINE IT, and PRIJAVA. The main content area features several news articles with accompanying images and titles, such as 'Podaljšanje uporabniških imen za dostop do omrežja ARNES' and 'Programska oprema za zaščito pred računalniškimi virusi Norman za VIZ'. The bottom of the browser window shows the Windows taskbar with the start button and several open applications.

Strategic program

"ICT in the function for encouragement of professional growth of educational employees".

GOALS of Training program conducted by Bob Hofman, ICT&E, Netherlands:

- Linking advisers/counselors and ICT experts for their professional development
- 10 Develop a clear view on added value of ICT in learning
 - Learning about ICT (learn to use)
 - Learning by ICT (use to learn)
 - Learning with ICT (interaction)
- 10 Gain experience in a virtual collaboration and learning in a VLE
- 10 Gain knowledge and skills in design of a seminar for trainers
- 10 Teambuilding and group work
- 10 Gain knowledge of and insight in constructing a continuous learning line; learn and apply in coherence
- 10 Approve upon a blended learning approach; training and 'learning on the job'; trainers reflect upon their support of teachers and facilitation of projects in school.

2. Projects on Internet

Reflective and collaborative communities Projects 1/4

The ICT skills include the ability to find, select, organize and evaluate information and to work with ICT to meet needs and solve problems by exchanging, developing and presenting information in ways that are fit for purpose and audience. Students need to learn how to adapt and adopt a range of skills to be truly effective learners

Examples:

- **Introduction-communication** activities: personal introduction, comments, questions and answers, peer assessment and online discussions
- **Find and manage information** activities: look/search for information about a specific topic
- **Creation** activities: doing hypothesis
- **Comprehension** activities: certain level of competences of comprehension and interpretation is expected.
- Working with different subject areas, sharing tasks, positive emulation, changing attitudes ect.

Pomladni dan v Evropi 2005

17. marec 2005

Pomladni dan v Evropi je enkratna priložnost za mlade Evropejce, da se aktivno vključijo in izmenjajo svoja mnenja o Evropski uniji.

Letošnja tema je bila **NOVA EVROPSKA USTAVA**.

Šole naj bi ta dan posvetile razpravi in izmenjavi mnenj med učenci in nacionalnimi oziroma mednarodnimi strokovnjaki o novi Evropski ustavi in sicer s pomočjo različnih dejavnosti, ki se nanašajo na vprašanja, s katerimi se sooča EU. (Več ...) *Zagotovo si oglejte igro odločanja (navodila so med gradivi)!*

Letošnje aktivnosti so se v iztekle, a na spletni strani si še vedno lahko ogledate številne dejavnosti kot vzpodbudo k sodelovanju v prihodnjem letu!

Osrednja prireditev Pomladnega dne je bila 17. 3. v Ljubljani (DOC) (PDF)

3. Distance education

A) Distance teaching:

- Mostly Slovene language
- Target groups:
 - ◆ pupils from Hospital schools
 - ◆ top athletes (supported by Olympic committee and Telecom Slovenia)
 - ◆ children from diplomatic families
 - ◆ pupils attending international schools within Europe

B) Teacher training

C) E materials

D) Standards for e materials

E) VLE

4. MIRK conference

<http://www.vsezavse.com/mirk>

Presentations of good practice
in the field of ICT
and discussions on
the development
Of future educational
projects and programs

PREDSTAVITEV **PRIJAVA NA MIRK '05** **ENGLISH**

[Potrdilo - udeleženci MIRK 2005 konference.](#)
[Posnetki predavanj s konference MIRK.](#)

10. konferenca MIRK se je uspešno končala. Namenjena je bila predstavitvi novosti in izkušenj na področju uporabe informacijsko komunikacijske tehnologije (IKT) pri pedagoškem delu z mladimi ter izmenjavi izkušenj vseh sodelujočih.

Na otvoritvi so bili prisotni trije izmed štirih, ki so leta 1996 oblikovali konferenco: ga. Alenka Aškerc Mikeln, ga. Alenka Adamič Makuc in g. Erih Skočir. Žal Mitje Doma, kot četrtega soustanovitelja, na konferenco ni bilo.

V obliki predavanj in delavnic so referate predstavili vzgojitelji, učitelji, profesorji in drugi pedagoški delavci iz Slovenije, Nizozemske, Estonije, Velike Britanije, Italije, Danske, Španije, Srbije in Črne gore, Avstrije in Egipta.

Številni udeleženci so bili zadovoljni, ravno tako tudi večina predavateljev. Na OŠ Cirila Kosmača so organizatorji vzpostavili 3 računalniške učilnice in videokonferenčni prenos iz velike predavalnice v Celje in Kranj. Glede na letošnje izredno veliko število udeležencev (prijavljenih 350), so bili včasih prostori šole premajhni za vse, ki so jih določene teme zanimale. V fotogaleriji si lahko ogledate slike iz otvoritve, predavanj in delavnic, ter skupne večerje v petek.

Na konferenci so v soboto potekale razglasitve devetih natečajev Pomladnega dne 2005, pri katerih so sodelovali učenci:
